

# Hybrid Pro Modular Kit 18B

Hybrid Pro 20x20 Modular Island Kit 18B

Hybrid Pro™ Modular Kit 18B is an outstanding 20ft x 20ft island exhibit, available for purchase or rent. Kit 18B features a square-shaped, sturdy aluminum frame and opaque push-fit SEG graphics, providing a clean, seamless look. Two demonstration areas are incorporated into the design, as well as an integrated storage closet.

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications

## features and benefits:

- 11'10" tall, square shaped island display
- Silver aluminum extrusion frame
- Push-fit SEG fabric graphics (16)
- 12 Lumina 200 LED floodlights
- Two Hybrid Pro Counter 19's with graphics to serve as demonstration areas (monitors not included)
- 39"W x 94"H x 63"D SEG closet for accessible storage
- Kit includes frame, 16 SEG graphic panels, two Hybrid Pro 19 Counters, one closet, twelve 200 LED floodlights and one Woodcrate
- Lights Included: Lumina 200 LED floodlight, straight arm and adjustable head, black finish, 19.5" from end to end
- Flooring and monitors not included
- Lifetime hardware warranty against manufacturer defects

## dimensions:

### Hardware

Assembled unit:

204.72"w x 141.73"h x 204.72"d  
5200mm(w) x 3600mm(h) x 5200mm(d)

Approximate Weight:  
1097 lbs / 497 kg

### Graphics

# FABRIC, VINYL & UV GRAPHIC CARE GUIDELINES

## GENERAL HANDLING FABRIC GRAPHICS

- Your fabric graphics should always be handled in a clean and dry area with clean hands. When possible, use white fabric gloves.
- Be sure fabric is clean and dry before packing.
- Machine washing and/or drying is not recommended for all fabrics. Refer to the chart below for which fabrics are washable.

## EMERGENCY STAIN TREATMENT (FABRIC)

- For dry stains, like loose dirt or pencil marks, try initially using masking tape or Magic Eraser (dry-not moistened).
- Introduce water or liquids to treat stains, if at all possible, treat the stain with fabric off of the frame.

- Place a clean dry cloth behind stain (to absorb stains while being treated). Moisten another cloth initially with just water (distilled water is optimal, if available).
- Gently blot stain with moistened cloth (or small area of moistened Magic Eraser), while trying to push stain through to the back, using the dry cloth to absorb.
- Repeat using care to keep the wet area as small as possible.
- Grandma's Secret Spot remover can be an effective stain remover. Mix several drops in a small cup with clean water. Repeat above and using dry cloth on back of stain to absorb.

## MACHINE WASHING FABRIC GRAPHICS

- Cold water/delicate cycle/tumble dry low or air dry. For stretch fabrics do not use dryer, let hang dry.
- Use caution on dryer time with graphics containing liners. It's best to put tension fabric on frame when fabric is still damp and let it air dry. Always be sure that the aluminum frame is clean when mounting the damp graphic.
- Fabric stretch graphics that are washed and machine dried may shrink up to 3/4" per every 50" of fabric in the direction of the stretch and shrink up to 1/4" in non stretch direction.

## STORING & PACKING BACKLIT GRAPHICS

- To avoid cracks in the ink or having to steam graphics, Backlit fabrics should be loosely folded with bubble wrap or stored around a tube.
- Avoid folding the graphic tightly to store in a small bag or box.

## GENERAL HANDLING VINYL & UV GRAPHICS

- Vinyl banners and rigid graphics should always be handled in a clean and dry area with clean hands. When possible, use white fabric gloves.
- Be sure vinyl/ UV is clean and dry before packing. Always follow material handling and packing instructions included.
- All vinyl material should be rolled with graphic facing in to protect the graphic printed side. Roll on a tube in available.
- Avoid folding material to reduce the risk of crease lines and chipped inks. If a graphic must be folded, try and fold loosely and as few times as possible.

## EMERGENCY STAIN TREATMENT (UV)

- For dry stains, like loose dirt, pencil marks or adhesive, try initially using masking tape, Masking tape can be quite effective at lifting dry surface dirt. Try 'pulling' as much of stain away as you can and avoid rubbing the stain into the material.
- While using Windex® avoid scrubbing harshly. Too much pressure can fade the graphic print.

## GENERAL HANDLING OF ROLLABLE PVC PANELS

All mural panels, truss panels and detachables should be rolled with the graphic facing out to protect the graphic printed side. Mural panels should be stored in the original plastic sleeves that are provided with the panels.

## STEAMING FABRIC GRAPHICS

- For optimal results, steam wrinkles when fabric is tensioned and installed securely on the frame.
- Fill steamer with clean drinking water or distilled water. Avoid using water containing hard minerals.
- Hold steamer upright and hold close to fabric. Avoid touching fabric with steamer.
- Do not tap steamer as water drips may cause water marks to form on graphic

# SETUP NOTES

Redesign of this exhibit without approval by Orbus may result in dangerous and unsafe structures. Nimlok disclaims any responsibility for redesigned exhibits it does not approve in writing.

Parts and components such as panels and extrusions are manufactured to metric sizing. Where ever possible sizes have been noted in feet and inches as well as in metric. Below is the imperial to metric sizing table for reference. "Nominal" refers to approximate size.

## NOTE: PARTS MAY COME PRE-ASSEMBLED FOR PACKING PURPOSES.

### METRIC TO IMPERIAL DIMENSION

2400mm = ( 94.50" )	1200mm = ( 47.25" )
2100mm = ( 82.67" )	900mm = ( 35.43" )
1800mm = ( 70.87" )	600mm = ( 23.62" )
1500mm = ( 59.05" )	300mm = ( 11.81" )
