SET UP INSTRUCTIONS 2/3

Connect Bridge Connectors To Frame

a. Use Bridge Connectors for Bridge frame.

b. Place the connector onto the upper section of the Channel Bar.

c. Turn the dial to the right to lock the connector.

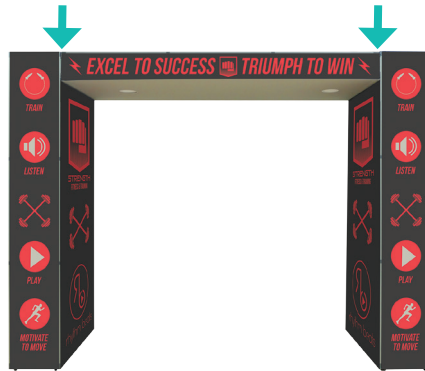

d. Repeat for the other connectors and other end of frame. Make sure each connectors are spread apart.

Build Arch

a. Before connecting the Bridge onto each side of the displays, partially remove both of the top graphics of the displays.

b. In order to build the arch, the displays must be evenly parallel and distant from each other. Make sure there is enough room to install the bridge.

c. Place the Bridge on top of the distant displays by sliding onto the Channel Bars of both frames with the Bridge Connectors. Check each side of the displays that are evenly flushed together.

Insert Ceiling LED Panel Lights

a. Connect the LED Driver cord and the top Ceiling LED Panel Light cord together.

b. Locate the pre-cut holes.

c. Partially remove one side of the graphic end caps.

d. Then place the Ceiling LED Panel Light inside the Bridge frame. On each side of the Ceiling Light panels, placed them on top of the Channel Bars at each end. Repeat for other LED Panel Light.
